Contents

NUMBER 1, FEBRUARY 1981

1 Introduction
John Wahren

Review

3 Actions and possible hormonal functions of circulating neurotensin
Sune Rosell and Åke Rökaeus

Original articles

21 Digital arterial tone in hypertensive subjects
Steen Levin Nielsen, Niels Olsen and Poul Ebbe Nielsen

27 Availability of glycogen and plasma FFA for substrate utilization in leg muscle of man during exercise
P. D. Gollnick, B. Pernow, Birgitta Essen, Eva Jansson and B. Saltin

43 Influence of hypoglucagonemia on splanchnic glucose output during leg exercise in man
Ola Björkman, Philip Felig, Lars Hagenfeldt and John Wahren

59 Interrelationship between splanchnic and leg exchange of glucose and other blood-borne energy metabolites during abdominal surgical trauma
Hans Stjernström, Lennart Jorfeldt and Lars Wiklund

73 Muscle morphology, enzyme activity and muscle strength in elderly men and women
A. Aniansson, G. Grimby, M. Hedberg and M. Krotkiewski

87 Physical training in elderly men with special reference to quadriceps muscle strength and morphology
A. Aniansson and E. Gustafsson

99 Effect of physical exercise on the digoxin concentrations in skeletal muscle and serum in man
T. Jogestrand and K. Sundqvist

105 Effect of nicotine on the formation of prostaglandins in the rabbit kidney
P. Alster and Å. Wennmalm

115 Human platelet thromboxane synthesis is unaffected by nicotine
P. Alster and Å. Wennmalm

123 Dissimilar effects of prostacyclin on cardiac output and forearm blood flow in healthy men
B. Eklund, T. Joreteg and L. Kaijser

NUMBER 2, APRIL 1981

Hypothesis

131 Decreased renal function in cirrhosis—an adaptive response?
J. H. Henriksen and N. A. Lassen

Original articles

139 Circulatory and metabolic responses of the cirrhotic liver during pre-operative simulation of a portacaval shunt by balloon occlusion of the portal vein
N. A. Delin, L. Hagenfeldt and J. Lindahl

151 Influence of branched-chain amino acid infusion on arterial concentrations and brain exchange of amino acids in patients with hepatic cirrhosis
Y. Sato, S. Eriksson, L. Hagenfeldt and J. Wahren

167 Intraperitoneal fluid pressure in patients with cirrhosis of the liver and in control subjects
J. H. Henriksen

175 On the necessity of strict bed rest during determination of ^{51}Cr-EDTA clearance
L. Brauner and H. Westling

181 Insulin clearance in normal and cancer involved human kidneys
O. Jonsson, G. Granerus, H. Kleist, J. Lundholm, S. Lundstam, A. Nilson, S. Pettersson and T. Scherstén

189 Comparison of ^{133}Xenon radiospirometry with quantitative ^{99m}Technetium-macroaggregated albumin perfusion scintigraphy
K. Vitting, S. Levin Nielsen, O. Munck and E. Rasmussen

195 Analysis of muscle mitochondrial function with techniques applicable to needle biopsy samples
K. Gohil, D. A. Jones and R. H. T. Edwards

209 Influence of everyday physical activity on the serum digoxin concentration in digoxin-treated patients
T. Jogestrand

215 Circulatory response to static muscle contractions in three different muscle groups
Å. Kilbom and J. Persson

227 Effect of indomethacin on basal and carbon dioxide stimulated cerebral blood flow in man
Å. Wennmalm, S. Eriksson and J. Wahren

NUMBER 3, JUNE 1981

Review

235 Substance P: its distribution, pharmacological actions and possible physiological role in sensory neurons
B. Pernow

Original articles

253 Reproducibility of treadmill exercise in patients with intermittent claudication
B. Berglund and B. Eklund

257 Blood flow resistance in the hand after coarctectomy
E. Hanson, B. O. Eriksson and R. Sivertsson

263 Digital pulse volume in the evaluation of haemodynamic effects of cardiac pacing
O. Edhag, B. Fagrell, U. Freyschuss, L. Kaijser and H. Vallin

275 Interstitial fluid: exchange of macromolecules between plasma and skin interstitium
N. Rossing and A.-M. Worm

Contents

285 Bronchial obstruction after oesophageal acid perfusion in asthmatics
G. Kjellén, L. Tibbling and B. Wranne

293 Noradrenaline and adrenaline concentrations in various vascular beds in patients with cirrhosis. Relation to haemodynamics
J. H. Henriksen, N. J. Christensen and H. Ring-Larsen

305 Influence of abdominal surgery trauma upon some energy metabolites in the quadriceps muscle in man
H. Stjernström, L. Jorfeldt amd L. Wiklund

Technical note

313 Urethral pressure profilometry; a low compliant recording system with perfused catheter
A. Engberg, D. Frank, G. Sundström and J. Åberg

NUMBER 4, AUGUST 1981

Review

323 Clinical ventilation–perfusion scintigraphy
F. Fazio and P. Wollmer

Original articles

339 Flow-volume curves in healthy non-smokers and in smokers
G. Hedenstierna, L. Jorfeldt and S. Bygdeman

349 Reference values for respiratory function tests in males: prediction formulas with tobacco smoking parameters
H. V. Fridriksson, P. Malmberg, H. Hedenström and G. Hillerdal

365 Spectral analysis of Doppler velocity patterns in normals and patients with carotid artery stenosis
K. C. Bodily, R. E. Zierler, F. M. Greene, Jr, W. M. Blackshear, Jr, D. J. Phillips, K. W. Beach and D. F. Strandness, Jr

375 Immediate central and peripheral haemodynamic effects of a new vasodilating agent Pinacidil (P1134), in hypertensive man
J. E. Carlsen, T. Kardel, T. Hilden, M. Tangø and J. Trap-Jensen

385 Effect of intra-arterially induced α-receptor blockade upon resistance in collateral arteries in patients with occlusion of the superficial femoral artery
K. Agerskov and O. Henriksen

395 Skeletal muscle fibre types and sizes in anorexia nervosa patients
B. Essén, L. Fohlin, C. Thorén and B. Saltin

405 Manometric oesophageal function, acid perfusion test and symptomatology in a 55-year-old general population
G. Kjellér and L. Tibbling

417 ^{51}Cr-EDTA clearance determined by one plasma sample
S. Groth and M. Aasted

Technical note

427 Conventional versus computer-aided interpretation of long-term ECG recordings—aspects of precision and economy
O. Pahlm, B. Jonson, M. Lukes, I. Ringqvist, M.-L. Engström and M.-L. Foborg

Contents

NUMBER 5, OCTOBER 1981

Review

437 Ventilation/perfusion relationships
P. D. Wagner

Original articles

453 Cardiovascular response to spinal anaesthesia in elderly men: effects of head-up tilt and dihydroergotamine administration
L. Bergenwald, U. Freyschuss, L. Kaijser and L. Westermark

461 Central and peripheral haemodynamic effects of prenalterol in patients with coronary heart disease
T. L. Svendsen, J. E. Carlsen, O. J. Hartling and J. Trap-Jensen

471 A simple and reliable method for determination of skin perfusion pressure in patients with severe occlusive arterial disease
M. Støckel and J. Brøchner-Mortensen

479 Pressure-volume and airway closure relationships in each lung in anaesthetized man
G. Hedenstierna, L. Bindslev and J. Santesson

495 Effect of short-term CO_2-breathing on the CO_2 content and intracellular pH in skeletal muscle of man
K. Sahlin, U. Freyschuss, E. Hultman and H. Sjöholm

503 Baroreceptor reflexes after coarctectomy
E. Hanson, B. O. Eriksson and R. Sivertsson

511 Influence of abdominal surgical trauma and intra-operative infusion of glucose on splanchnic glucose metabolism in man
H. Stjernström, L. Jorfeldt and L. Wiklund

525 Increasing glucose intake during total parenteral nutrition increases norepinephrine excretion in trauma and sepsis
J. Nordenström, M. Jeevanandam, D. H. Elwyn, Y. A. Carpentier, J. Askanazi, A. Robin and J. M. Kinney

NUMBER 6, DECEMBER 1981

Hypothesis

535 Interstitial protein 'wash-down', an early sign of cardiac failure?
H. Noddeland, H. O. Fadnes and K. Aukland

Original articles

541 Continuous monitoring of oxygen tension in human gastrocnemius muscle during exercise
S. Holm and A.-C. Bylund-Fellenius

553 Free fatty acids and the electrophysiology of the dog heart *in situ:* effects of isoprenaline, nicotinic acid and lipid emulsion with heparin
E. S. Platou, E. S. P. Myhre, H. Refsum and O. D. Mjøs

565 Protein-kinetic and haemodynamic studies in patients with liver cirrhosis. Evidence of a lymph-imbalance theory of ascites formation
J. H. Henriksen

579 Blood gases in orthostatic and exercise tests in patients with hyperventilation syndrome
A. R. A. Sovijärvi, L. Karhumäki, T. Ahola, H. Lehtinen, P. Peramäki and A. J. Uusitalo

587 Abstracts of the 2nd Scandinavian Congress of Clinical Physiology

617 **Author index**
